AVAYA

INTELLIGENT COMMUNICATIONS

The Avaya B100 Series Conference Phones offer sophisticated and easy to use communication solutions for small to large companies. Providing superior voice quality with the award winning Omnisound® audio technology, the B100 Series Conference Phones cost effectively offer a variety of low bandwidth, plug-and-play deployment options that address different user groups within your organization; the unique needs of small business executives, managers and staff are each supported with a broad choice of models.

With a sleek appearance and suite of smart productivity features, the B100 Series Conference Phones are an ideal choice for companies adding endpoints to their existing infrastructure or deploying a new network. These conference phones can be used for scheduled meetings and training sessions or for impromptu calls between globally dispersed offices and remote workers.

Crystal Clear Sound: Omnisound audio technology provides clear transmission during meetings – so you and your team don't miss any part of the discussion. Full duplex transmits and receives sound simultaneously to prevent audio clipping; 360° surround sound as well as powerful speakers optimize audio pick-up and broadcasting. Noise suppression filters cut static background noise and an equalizer lets you adjust pitch to suit your preference.

Plug and Play simplicity: Connect the Avaya B149 Conference Phone to an analog telephone line and to a power outlet and you are ready to go! Quick and easy. Also included is a conference guide, perfect for making multi-party calls, and a handy phone book to store your key contacts.

Flexibility and Productivity Enhancing Features: Enhance web conferencing, video and other communications environments. The

B149 Conference Phone is a versatile high performer that complements your existing solutions, which can be easily redeployed as your business grows or as needs change.
